WOLF 9500 DT IS SUITABLE FOR

WOOD

Wood waste	230	t/h
Tree roots	90	t/h
Green waste	80	t/h
Cable reels	130	t/h
Pallets	200	t/h
Railway sleepers	70	t/h

WASTE

Tires	80	t/h
Construction waste	150	t/h
Bulky waste	110	t/h
Household waste	200	t/h
Industrial waste	150	t/h
Paper (rolls)	60	t/h

METALS

Aluminium	40	t/h
End-of-life vehicles	25	t/h
Household appliances	35	t/h
Car engines	15	t/h

FEATURE — SPECIFICATIONS

FEATURE	SPECIFICATIONS
Drive	• Transmission (diesel or electric) • Dieselmotor CAT C18 Stage 5 ± 765 HP
Shafts	• Working length of the shafts ± 2500 mm • Diameter of the shafts ± 950 mm • Rotationspeed of the shafts ± 27 rpm • Automatic return system
Hydraulics	• Bosch Rexroth with double tandem pump
Conveyor	• Long conveyor belt, ± 1400 mm wide • Hydraulically adjustable dropping height up to ± 5.300 m (33 degrees)
Feeding	• Large feeding hopper which can be tilted
Measurements l x b x h (m)	• 11,36 × 3 × 3,22 (transport)
Total weight	• Approx. 47 tons

ABOUT WOLF SHREDDERS

We proudly present our new brand! We have more than 20 years of experience in the recycling industry and with all the knowledge we gathered over the years, we developed a new shredder.

Herewith we would like to give you an impression of our WOLF 9500 DT shredder, which can benefit your company as well. Whether you are shredding metal, wood, industrial waste, construction and demolition waste or other materials, our shredders are built to meet all challenges.

Our team of experts will be happy to advise you on choosing the best shredder for your company.

DISCOVER THE POWER OF OUR NEXT LEVEL SHREDDERS

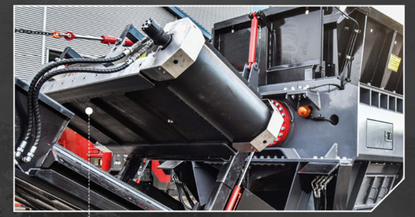

TILTABLE HOPPER
For a continuous materialfeed and optimal capacity

WOLF SHAFTS WITH ANGLED KNIVES
Designed especially to shred the most difficult materials. At the maximum hydraulic pressure the shafts will automatically turn backwards

FERROUS METALSEPERATOR
Magnet is easily adjustable in height

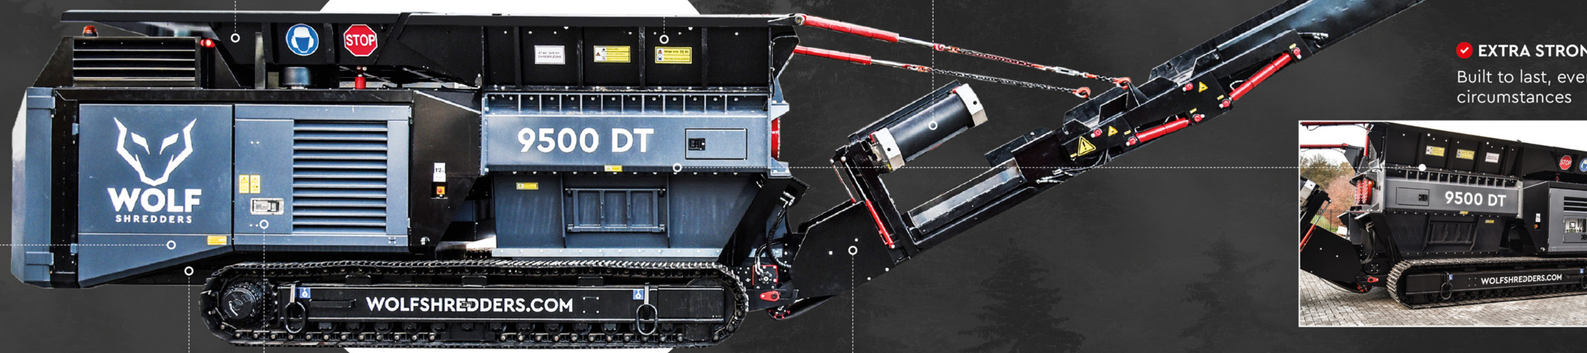

EASY TO TRANSPORT
The shredder can be folded in easily and quickly, and can be transported on a low bed trailer

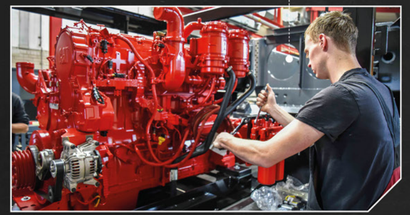

LARGE MOTOR COMPARTMENT
For easy access to all components

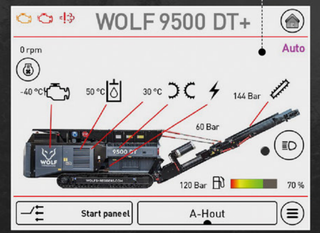

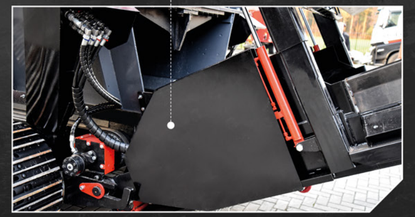

EXTRA STRONG SHAFT HOUSING
Built to last, even in extreme circumstances

CAT C18 STAGE 5
765 HP Diesel motor

CONTROL SYSTEM
Efficient control system, remotely controlled

2-PIECE DISCHARGE CONVEYOR BELT
Lower conveyor belt and discharge conveyor belt both have steel cord layers

SIMPLE CONTROLS
The shredder can easily be controlled remotely
